

## CAMPUS ORGANIZING REPORT

Submitted to: Libertarian National Committee, Sept. 24, 2018

Submitted by: James W. Lark, III  
Region 5 Representative, Libertarian National Committee

This report will provide information concerning efforts to build and support Libertarian campus organizations. I shall provide an updated report at the LNC meeting in Phoenix should additional information become available.

- 1) I continue to respond to inquiries from people who want information about the LP campus outreach effort. I am usually able to respond within 24 hours.
  - 2) I continue to work with the Advocates for Self-Government to assist student organizations.
  - 3) I continue to work with various state and local LP organizations to assist their campus outreach efforts. In particular, I work with state campus outreach coordinators to assist their programs to build campus organizations and assist campus activists.
  - 4) I continue to work closely with Students For Liberty to build libertarian groups at high schools and colleges. (I am a member of the Board of Advisors of SFL.) As part of this effort, SFL board members and I have found ways for the LP to use the services available from SFL. We must take care in the ways we work together to avoid jeopardizing SFL's 501c(3) status.
- I shall address the upcoming SFL regional conference at the University of Minnesota. In addition, I gave an address at the European Students For Liberty regional conference in Reykjavik, Iceland on September 22. (The address was titled: "Economic Fallacies: Discussion of Some Common Fallacies and Misconceptions about Economics.")
- 5) I gave a lecture on Aug. 14 at the 2018 Liberty International World Conference, sponsored by Liberty International and the Freedom and Entrepreneurship Foundation in Poland. (The address was titled "Are You Ready to Rumble? Preparing Yourself Intellectually for the Battle.")
  - 6) I continue to work with Young Americans for Liberty on various projects.
  - 7) I serve as a member of the Foundation for Economic Education Faculty Network. I do not know whether FEE wants me to develop workshops on understanding public policy data and risk analysis. There was discussion in the not-too-distant past of my developing such workshops; however, I haven't been contacted recently about the matter.
  - 8) For some reason there has been a significant decline in the number of requests I have received from students who wish to receive assistance at the start of the academic year in starting Libertarian groups on campus. I have no idea why this decline has occurred.
